

# **Professional V2.0**

---

## **"What's New"**

### **Vista Compatibility**

- Docsvault Professional edition now supports Microsoft Windows Vista.

### **Inbuilt Document Viewer**

- Docsvault now has inbuilt document view window that allows to quickly preview all image files and PDF documents scanned using Docsvault.
- View all pages of multipage files with previous and next page buttons.
- Browse for next and previous files in that folder right from the preview window.
- All necessary features like rotate, zoom, fit to window, fit to width etc that make handling the document preview easier.

### **Enhanced Scanning Interface**

- Added batch scanning facility to automatically create new files at a predefined # of pages.
- Auto deskew feature to automatically straighten crooked pages.
- Auto skip blank pages with customizable ink density threshold.
- Scan and append pages to existing scanned PDF and Tiff files.
- Advanced options to customize threshold, brightness and contrast before scanning.
- Support for duplex scanners.

### **Other Features**

- Thumbnail display of all image type files along with all PDF files scanned using Docsvault for visual identification of your files in the list view panel.
- User can now set the path for their Check Out folder.
- You can now permanently purge old and unneeded Audit Log data from Audit Trail Query.
- Some more eye candy skins/themes
