Introduction

Richard Christie, the proprietor of Xieconsult wanted document management software for simple purposes and Docsvault fit the bill perfectly.

Challenges

Richard Christie of Xieconsult faced the following challenges prior to using Docsvault:

- Inability to find inter-related paperwork
- Always having trouble in searching documents

Solution

Docsvault not only helped search documents but also find inter-related documents at Xieconsult.

Benefits

When you are managing a small business, it is all the more important that your documents are organized and easily retrievable. Most businesses feel the need for a good document management system that is easy on the pockets and answers most needs of small businesses.

Xieconsult had the same need and Docsvault was the answer to their needs. Some of the features like Integrated Scanning and OCR, MS Office Integration and Printing documents to PDF were extremely helpful to coordinate documents in a structured, uniform manner.

Document management features such as version control and profiling makes it easy to easily find various documents and their versions. Local collect folder and back-up tools are other useful features of Docsvault Professional that Xieconsult find useful.

With the powerful search feature and profiling, Xieconsult can not only search documents but also find inter-related documents at one go.
